In addition, they will support the development of effective cost reduction strategies and implementation plans.

Primary Responsibilities

- To assist the Strategic Sourcing Managers with the development and execution of strategies through the sourcing process for specific Category Group of spend areas. This includes but is not limited to working with and providing support to business users across the Group, collecting and analyzing data, developing and assessing business cases
- To prepare all necessary documentation required for supplier selection and the negotiation process (RFXs)
- To assist in the development of procurement policies and processes.
- To help drive best practices in line with procurement excellence
- To measure and track internal performance within each spend category
- To monitor strategy implementation
- To provide procurement administrative support as required

Technical Skills and Personal Characteristics

- Strong analytical skills
- Strong negotiating skills
- Strong organizational and coordinating skills
- Ability to influence people
- Ability to multi-task
- Critical thinker
- Excellent communication skills (written and verbal)
- Ability to work independently
- Willingness and ability to travel

Qualifications and Experience

- A Bachelor's Degree in any one of the following disciplines: Economics, Logistics, Supply Chain Management, Operations management, Finance or Engineering.
- Experience in Procurement, Finance, Engineering, Supply Chain Management or Strategy would be an asset

Deadline for applications is May 14th, 2019
