CHAIRMAN'S STATEMENT FOR YEAR END RESULTS 2022

2022 was the 99^{in} year of operations for the Massy Group of Companies. Given the tumultuous environment in the world today, and the success the Group has experienced in its focus on its three main Portfolios and in expanding internationally, we have created a new vision for the Massy Group as it approaches 100 years of operations: "A Global Force For Good, An Investment Holding Company with a Caribbean Heart". For a deeper understanding of this new vision, I recommend reading the Group's Annual Report for 2022. A new format of the Annual Report will be released shortly that I am sure you will enjoy.

Consistent with its new vision, the Group and its Portfolios are now setting their sights on global expansion. Having narrowed the Group's focus to its three main Portfolios in which the Group has distinctive operating capabilities and significant scale, and having divested US\$271 million of non-core and under-performing assets, the Group is well positioned to pursue global expansion. In each of our main Portfolios, we are finding opportunities to acquire private, independently run businesses in most countries we examine. The combination of our ability to further invest in these businesses, with our approach to listening to and empowering existing management, and our deep understanding of the fundamentals of running these businesses, allows us to grow and improve the operations of these acquisitions and produce more than satisfactory returns on our investments

As we enter the Group's 100th year of operations, we have never been better prepared for the future. Most of the underperforming and non-core assets have been divested from the Group. All that remains to be divested are some non-core real estate assets in Barbados. The Group's Debt to Equity is down to 25%; and in addition to its TT\$1.2 billion in cash at the end of the year, the Group has US\$176 million invested overseas to fund acquisitions and growth initiatives. The Group's governance has been strengthened with the creation of Portfolio boards of directors with independent directors, and with increased autonomy and decision-making being implemented throughout its operations.

The Group's Revenue from Continuing Operations grew by 11% from \$11.1 billion (US\$1.6 billion) in FY2021 to \$12.4 billion (US\$1.8 billion) in FY 2022. Operating Profit from Business Units grew by 25% from TT\$961

million (US\$143 million) in FY2021 to TT\$1.2 billion (US\$178 million). Profit Before Tax (PBT) from Continuing Operations grew by 11% over the same period; growth was impacted by the underperformance of the overseas cash investments held by the Group in FY2022 compared to the significant gains produced in those investments in FY2021.

Given the strength of the underlying growth by the Group's operating subsidiaries, the Board of Directors has approved a final dividend of 12.68 cents, which when added to the interim dividend of 3.00 cents gives a total dividend for the year of 15.68 cents which represents a 10% increase over restated dividends declared for 2021 and a 3.3% yield on the share price of \$4.71 on September 30th, 2022.

I wish to congratulate the management and staff in all of the Group's operations for another year of exceptional work. As I reflect on my 25 years of service on the Massy Holdings Board of Directors, I do so with great satisfaction. I have seen the Group's resilience through many challenging times, but never has the Group been stronger. The focus on three main Portfolios in which Massy has deep historical experience and expertise, and the devolution of greater autonomy to, with stronger governance of, the Portfolios has unleashed unprecedented growth that can be seen in the Company's results. Leaders and employees throughout the Group are encouraged to "Run it like it's yours". With an emerging culture that encourages participation and with changes to reward systems to share abundance more broadly throughout the organisation when the Group and its Portfolios do well, more and more, our employees are acting like owners. This bodes well for the future of the Group and its continued growth.
